# UI / UX Design

In this Specialization, learners summarized and demonstrated all stages of the UI/UX development process, and reviewed current best practices in UX design to create effective and compelling screen-based experiences for websites or apps. Learners completed a series of short exercises, both visual and non-visual, to apply acquired knowledge, from organizing and structuring screen-based content, defining goals and strategy, to creating wireframes and visual mockups. Finally, learners produced a mid-level digital prototype with simulated functionality, as well as a comprehensive plan for a complex website.

A handwritten signature in black ink that reads "M. Worthington".

Michael Worthington  
Faculty, Program in  
Graphic Design  
School of Art

A handwritten signature in black ink that reads "R. Jaster".

Roman Jaster  
Visiting Faculty,  
Program in Graphic  
Design  
School of Art

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
